

MediaWAN

Telstra Broadcast Services

Video, Audio and Data delivery done differently

MediaWAN offers a reliable, high-bandwidth, high-performance and low latency IP media and data network with national reach.

Transporting real-time video, audio and enterprise data on dedicated bandwidth between critical media production hubs and customer locations. The solution can scale with your business, offering greater efficiency and control over your connectivity.

Delivered on Australia's largest fibre network with end-to-end management and support from Telstra Broadcast Services.

MediaWAN uses Australia's largest fibre network to deliver IP media and data traffic with low latency, low jitter and bit perfect carriage.

 <p>National coverage</p> <p>We connect more media organisations to each other than any other domestic provider, based on one of the largest fibre footprints in Australia.</p>	<p>Speed options</p> <p>Up to 100Gbps for reliable delivery of real-time video, audio and enterprise data on dedicated bandwidth.</p> 
 <p>Network control</p> <p>Manage your network the way you want, mixing SMPTE media streams with enterprise data traffic on a dedicated network in response to your business needs.</p>	<p>A secure platform</p> <p>Our network is monitored around the clock by dedicated teams using advanced management systems.</p> 
 <p>Broadcast operations</p> <p>A dedicated team of broadcast, media and telco experts managing millions of hours of high value media content via a 24/7 Broadcast Operations Centre and Master Control Room.</p>	

Consolidate your media and enterprise networks to one platform with support and service assurance.

 <p>Performance that scales as you do</p> <p>We offer a range of speeds from 10Gbps up to 100Gbps so your connectivity grows with your business.</p>	<p>Efficiency through simplicity</p> <p>Make the complex simple with dedicated bandwidth through a single provider coupled with clear, cost-effective pricing.</p> 
 <p>Improve network control and security</p> <p>Move beyond video networks to IP protocols whilst retaining control of data flows and managing stringent security.</p>	<p>Effective business continuity</p> <p>Keep the backbone of your business running 24/7 with protected network options and service assurance.</p> 

The Telstra Way

Telstra is a leading technology company offering a wide range of services globally. We bring innovative technology, capability and talent from across the globe to enable our customers to thrive in a connected world. Telstra's heritage is proudly Australian, and we have a longstanding international business with specific expertise in the Asia Pacific region. Telstra Broadcast Services brings to our customers a dedicated team of media industry professionals, high performance media networks, online video and cloud platforms, world class satellite services, and 24/7 bookings, operations and engineering support to help securely take your live sports content from stadiums to screens.
