

# **TIPT and Liberate**

**Simple, reliable, flexible and  
scalable business communications**

TIPT is a complete unified communications solution that's simple, flexible, scalable and highly reliable. It enables you to deliver calls securely with one simple cloud collaboration solution across the desktop and mobile.

TIPT provides a consistent user calling experience across different compatible connected devices and locations, while avoiding the cost and complexity of buying, integrating and managing hardware and applications.

### **Simplicity**

Bring your people together more quickly and easily to share information. TIPT helps to deliver a seamless and consistent user experience across multiple devices and locations, while reducing the cost and complication of management.

### **Scalability and flexibility**

It's a customisable and scalable solution with a range of plans, features and end points. Use video to connect with customers and colleagues on compatible devices, take TIPT on the road with Webex where coverage is available, develop apps with the TIPT App Development Environment, or run call centre services.

### **Reliability**

You can rely on our networks to ensure performance and reliability.

### **Drive productivity and innovation**

Help enable your staff to be more agile and responsive, adapt to market change faster, and foster new and more flexible ways of working.

### **Available over the Internet**

TIPT is now also available over any compatible network, anywhere you have internet in Australia. Adopt cloud collaboration over your preferred internet service, including Telstra Broadband and NBN.

## Liberate Your Workforce

The unique inclusion of Liberate allows users to unify the desk phone and mobile in a single network-integrated solution, which helps maintain your business identity while assisting to migrate your organisation to a mobile-first strategy. Customisable to fit your unique business needs, this solution also makes experiences more seamless as your people switch between the office and their homes, as well as from their work computers, desk phones and mobiles. Liberate optimises the tools you already have in place while increasing functionality and features.

## Build your TIPT solution in four easy steps

<b>1. Select</b> User packs to suit your requirements	<b>2. Choose</b> Your endpoints from a range including soft phones, physical handsets and IADS to connect analogue devices	<b>3. Customise</b> Add-ons to meet your business needs	<b>4. Pick</b> A calling plan to suit your business needs
--	---	--	--

### Step 1: Select User Packs

Each pack delivers a range of features that can be used with compatible audio and video IP handsets and soft phones. The services have been bundled to suit a variety of usage needs and budgets. Choose the pack that works best for you\*:

User Pack Options	Details
<b>Basic User pack</b>	An entry-level pack that provides simple telephony features to suit most common requirements. Best value pack for connecting a TIPT IAD (for your analogue device) or your BYO room-based video conferencing unit
<b>Standard User pack</b>	This pack is suited to front offices, back offices and branches. It includes the basic services, plus additional features such as Liberate Unified, voicemail (including voicemail to email) and web-based setup. It also includes the Webex for TIPT softphone for video calling across mobile and desktop devices.
<b>Executive User pack</b>	A comprehensive package of telephony services well suited to your executives, support staff and mobile workers. It includes the standard services plus additional features for Call-routing, Liberate Unified and Remote Office functions. It also includes the Webex for TIPT softphone for video calling across mobile and desktop devices.
<b>Hoteling/ Hot Desking pack</b>	Support a more flexible workplace by allowing your staff to have the same phone number and a range of calling features at any desk.

\* See full list of inclusions at the end of this brochure.

### Step 2: Choose your endpoints

You can enhance the experience for your staff by sourcing the latest high quality voice and video handsets through us. Choose from a wide variety of endpoints that are compatible with TIPT. This includes office video phones, basic handsets, conferencing phones, wireless DECT handsets, soft phones and IAD solutions to integrate your analogue devices like fax, lift phones, doors and gates.

### Step 3: Add-on options to enhance your TIPT solution

Customise your solution from the range of options available, which may incur additional charges.

Add-on Options	Details
<b>Call Centre</b>	A fully scalable 'virtual call centre' solution for you to quickly set up call centre services, without the expensive investment in equipment, infrastructure and technical support. Queue up to 500 calls, using intelligent routing to send out to your agents.
<b>Cloud Call Recording</b>	You can now enable Cloud Call Recording across your business, inside or outside your call centre. It can also record calls that are answered directly on a mobile phone, ensuring your organisation addresses regulatory and compliance requirements.
<b>Liberate Mobile</b>	Liberate allows users to utilise the functionality of a desk phone on their mobile in a single network-integrated solution, which helps maintain your business identity while helping migrate your organisation to a mobile-first strategy. Customisable to fit your unique business needs, this solution also makes experiences more seamless and helps maintain corporate identity for mobile-only teams and workers. Specific features included are shown in the table below.

Add-on Options	Details
<b>MiReception</b>	Provide your front-of-house staff with an advanced MiReception thin client that can help them handle a large volume of calls efficiently.
<b>Real Time Billing</b>	Have access to call and cost details for your incoming and outgoing calls within minutes of hanging up.
<b>Virtual Meeting Room (VMR)</b>	Enjoy powerful phone features and conduct multi-party video meetings on TIPT endpoints with a single dial in number, or join in from compatible devices.
<b>Webex for TIPT</b>	Enhance your collaboration experience whether you're at a desk, on the go, or together in a meeting room. It helps speed up projects, build better relationships, and solve business challenges. It also has all the team collaboration tools you need to keep work moving forward. Webex for TIPT also connects with the other tools you use to simplify life.

There's also, Hunt Groups, Auto Attendants, Pick up Group, Authorisation Codes, Music on Hold, Voice Portal, Call Park and Call Pickup features available.

#### Step 4: Pick an optional calling plan to suit your business needs

TIPT Complete calling plans enable you to better manage your variable costs on a month-to-month basis to provide you with cost certainty and peace of mind. TIPT Complete call plans are capped offnet calling plans for your users (includes all calls to Local and National numbers, as well as calls to Mobiles).
